## Progress Being Made In Initial Steps For Installing Water and Sewerage System Council Told

Ratepayers To Be Asked For Authority To Issue \$50,000 Worth Of 20-Year Bonds At 5 1/2 Per Cent To Defray Cost Of First Unit—Haddon & Miles, Who Made Original Survey Of Town, Retained As Consulting Engineers—New Well To Be Drilled, For Which Tenders Will Be Called At Once.

That progress was being made in the initial steps of the installing of a water and sewerage system in Grande Prairie was the report presented at a meeting of the town council on Monday night.

The Mayor said that word had been received from the Public Utilities Board acknowledging receipt of the water and sewerage by-law and asking that certain changes be made in the wording of one clause. This, said the Mayor, had been done and the by-law sent back to the board. Approval will be given as soon as the certificate has been received from the Provincial Public Health Department.

Word was also received from D. H. Mendon, provincial sanitary engineer, who has been in consultation with Mr. Haddon & Miles, who made the original survey of the town several years ago when the town was contemplating installing water and sewerage system, and who have been retained by Grande Prairie to draw up plans and specifications for the system and act as consulting engineers.

Councillor Charters, chairman of the water committee, recommended that tenders be called for the installation of an eight-inch well, as provided for in the original plan. This recommendation was accepted and acted upon.

Mayor Foster observed that it should not be long till the whole scheme was well under way. He said that he had asked for \$50,000 worth of 20-year bonds at 5 1/2 per cent to defray the cost of the first unit.

## Elevator Tests And Cereal Field Days Begin July 24th

Through the Beaver Lodge Substation, the northern elevator companies and the district representative of the Canadian Elevator and Alberta Departments of Agriculture arrangements have been made for a series of agricultural field days beginning on July 24 to August 14.

On July 24 the Beaver Lodge Substation will be open to the public. The following day, July 25, will be devoted to the testing of elevators. On July 26, the district representative of the Canadian Elevator and Alberta Departments of Agriculture will be present. Prof. Boving and Dr. A. K. Fisher will be present to participate in field days at the Baldhead, Rye, Blundell, and Peace River stations.

Elevator test plots are to be inspected at Grimshaw on Monday, August 2, at Wainwright on Tuesday, August 3, at Hinton on Wednesday, August 4, at Grande Prairie on Thursday, August 5, and at Hinton on Monday, August 9.

On Tuesday, August 10, Dr. J. H. Newman, Dominion Cerealist, is due to arrive at Beaver Lodge Substation to either the president or secretary of the Canadian Seed Growers' Association, and by P. J. Block, the well-known farmer and experimenter.

On the afternoon of the 11th a big cereal field day is to be held at the Beaver Lodge Substation, with addresses commencing at 2:30 p.m., followed by an inspection of the experimental plots and the new 1000 elevator test featured at this point. The day will conclude with a picnic.

After this preliminary testing and speed-making, Dr. Newman and party will enter for Edmonton, and on Saturday, July 24, a big cereal field day will be held at Hinton, followed by a picnic at Hinton on Sunday, July 25.

Mr. J. H. Tremblay, M.L.A., is being invited.

## Date G. P. Flower Show To Be Set On Friday Evening

A meeting of the executive of the Grande Prairie District Horticultural Association will be held in the office of the Mayor on Friday evening, July 23, at 8 o'clock, to set the date for holding the first Annual Flower Show.

The date will be set some time between August 10 and August 20. Attention is drawn to the fact that the Beaver Lodge Substation will be held on Friday, August 13, and growers of plants and flowers will be asked to make both shows a success.

The prize list will be sent out by J. H. Mearns, secretary of the Horticultural Society.

## AIRPLANE PIER AT BEAR LAKE NOW UNDER CONSTRUCTION

Sometime ago the Municipal District of Bear Lake was authorized to construct a pier at Bear Lake Point to be used by the airlines. This pier is now under construction and is expected to be completed shortly.

## EAST OF THE SMOKY ENJOYS TWO GOOD HEAVY SHOWERS

George DeBell of DeBell, who was in Grande Prairie on Monday, stated that the Tribune that he has enjoyed two heavy showers in the last 24 hours and the other Monday morning. This, he said, assured the crops, so far as moisture is concerned.

## Oldtimers Plan To Be At Rycroft's Big Stampede

RYCROFT, July 20.—The public are reminded that the sixth annual Rycroft sports and Stampede will be held on Tuesday and Wednesday, August 3 and 4.

Since the past number of years many oldtimers have renewed acquaintances at Rycroft during the two days of the Stampede and Sports and word has been received from "Doc" Calkin at Edmonton that the Stampede will be in attendance this year. Mr. Calkin recalls some thirty-six years ago, when Rycroft was young and horses and steeple were really wild. He hasn't missed a Rycroft Stampede since and is looking forward to be on hand again this year.

Bert Sales and Jim Hanna have arranged to have some of the toughest horses in the country on hand for this year's Stampede, and there will be some good horse races too. The program of races has been enlarged to include harness races, saddle horse races, free-for-all pony races, Roman standing relay, steeple, chuck wagon, saddle and barrel races. While the free-for-all race was in attendance last year, it was not held this year. It might be mentioned that this will be the first time that the prize money will be \$1000 and \$1000.

Mr. and Mrs. Jim Carey will be present to give demonstrations in prize riding and truck roping.

Harry Murray and Basil Hill are at present collecting in the R. C. Block and will be present to give demonstrations in prize riding and truck roping.

There will be refreshment booths on the grounds.

Rycroft's magnificent new hall has been decorated for the occasion and a five-piece orchestra promises to make everything to be desired in dance music.

## Work To Start On New Broadcasting Station Soon

Sit, On W. Caldwell's Farm, Two Miles North Of Grande Prairie, Work Will Be Started On Building, Which Will Also Be Used As A Studio For The New Broadcasting Station.

As a result of the visit to Grande Prairie last week of Mr. McMahon, technical director of the Peace River network, it is understood that work will soon start on the erection of the transmitting and studio building on a site about two miles north of Grande Prairie. The building will be a two-story structure and will be used as a studio for the new broadcasting station.

Mr. McMahon, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## W. J. THOMPSON BRINGS IN REGISTERED BACON TYPE SWEDISH YORKSHIRE PIG

W. J. Thompson of Grande Prairie recently brought in a registered Swedish Yorkshire pig for his farm. This pig is said to be a Yorkshire breed that was imported from Sweden two years ago and the only one of its kind in the area.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## WOLVES KILL HORSE IN KELLY LAKE DISTRICT, SAYS VISITOR

Miss Campbell, homesteading at Kelly Lake, near the B. C. boundary, has been told by a visitor from the United States that a horse was killed by wolves in the Kelly Lake district.

The visitor, who is a Canadian, was in the Kelly Lake district on the night of July 13 and he had a close encounter with a wolf. He said that the wolf was very large and very fierce.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## "With Proper Transportation Facilities Peace River Would Be Sitting On Top of the World"

Says Fred Cooke, Who Returned From A Seven Thousand-Mile Trip To Eastern Canada On Monday—Ontario And Quebec Have One Of The Best Roads In The World—Through Thousand Islands Was One Of Highlights Of Trip.

"The Peace River region has a great future as a tourist center," said Fred Cooke, who returned from a seven thousand-mile trip to Eastern Canada on Monday. Cooke, who is a well-known traveler, said that the Peace River region has a great future as a tourist center.

Mr. Cooke, who is a well-known traveler, said that the Peace River region has a great future as a tourist center. He said that the Peace River region has a great future as a tourist center.

## Great Activity In Nor. Mining Fields Says G. P. Man

That there is great activity in the gold mining fields of the North is the report brought to Grande Prairie by Knute Hougland, who arrived recently after working for the past year and a half in the mining fields of the North.

Knute Hougland, who is a well-known miner, said that he had made the trip by plane from Gordon Lake, near Edmonton, to the mining fields of the North.

Leaving Grande Prairie, Mr. Hougland worked for a short time at the mining fields. He then went to Great Bear Lake, where he worked for several months. He said that the mining fields of the North are very active.

From Great Bear Lake Hougland went to the mining fields of the North. He said that the mining fields of the North are very active.

Mr. Hougland, who is a well-known miner, said that he had made the trip by plane from Gordon Lake, near Edmonton, to the mining fields of the North.

Knute Hougland, who is a well-known miner, said that he had made the trip by plane from Gordon Lake, near Edmonton, to the mining fields of the North.

## W. I. Constituency Conference At Rio Grande, Aug. 18th

The Women's Institute Constituency Conference will be held at Rio Grande on Wednesday, August 18th.

There will be a morning session of 11:30 a.m. to 1:30 p.m. and a afternoon session of 2:30 p.m. to 4:30 p.m. The conference will be held at the Rio Grande Hotel.

Mr. Stewart of Peace River, newly elected president of the W.I., will give the address, and an exhibit of handicrafts will be on display.

Mr. Stewart, who is a well-known W.I. leader, will give the address. He will also give a report on the work of the W.I. in the past year.

## Oldtimers' Picnic Saskatoon Island Wed., July 28th

The oldtimers will hold their annual picnic on Wednesday, July 28, at Saskatoon Island. The picnic will be held on the island, which is a beautiful spot for a picnic.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## Threatening Clouds Cut Down Attendance First Day Of The Wembley Ann. Sports, Rodeo

Marie Treille Crowned Rodeo Queen In Colorful Ceremony—Bang Up Horse Race At Wembley—Big Crowd Expected On Second Day.

The threatening clouds that cut down attendance at the first day of the Wembley Ann. Sports and Rodeo, are expected to clear on the second day.

Marie Treille, who is a well-known rodeo queen, was crowned Rodeo Queen in a colorful ceremony. She will be the Rodeo Queen for the year.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## Hay Is Destroyed By Fire Kleskun Lake Bottom

A fire which started Monday night destroyed the hay bottom of Kleskun Lake. The fire was caused by a lightning strike and it destroyed a large area of hay.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## HAY IS DESTROYED BY FIRE KLESKUN LAKE BOTTOM

## Hon. J. G. Gardiner, Federal Minister of Agriculture Takes Up Matter For G. P. District

Dr. A. L. MacRae, President of The Grande Prairie Liberal Association, Received Word From The Federal Public Works Department That Immigration Hall At Grande Prairie Can Be Obtained Free Of Charge To Be Used As An Isolation Hospital, Providing Responsible Body Takes Over The Building.

## Prov. Govt. Wants To Pay Obligations Aberhart Explains

EDMONTON, July 20.—Representatives of holders of approximately \$140,000.00 in bonds of the province, who are to be paid by the province, are to be paid by the province.

Mr. Aberhart, who is the Premier of the province, said that the province will pay the obligations of the bonds.

Mr. Aberhart, who is the Premier of the province, said that the province will pay the obligations of the bonds.

## Council Decides To Start Road Work Immediately

All members of the council were in the hall at the time the council decided to start road work immediately.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## Oddfellows Enjoy Picnic At Burnt River Sunday

The Oddfellows picnic held at Burnt River Sunday was a success. The picnic was held on the river and it was a very enjoyable day.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## BEZANSON BASEBALL TEAM DEFEATED B. L. 9-3 ON SUNDAY

Beaverson baseball team defeated the B. L. team 9-3 on Sunday. The game was played at the Beaverson stadium and it was a very exciting game.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## BEZANSON BASEBALL TEAM DEFEATED B. L. 9-3 ON SUNDAY

Beaverson baseball team defeated the B. L. team 9-3 on Sunday. The game was played at the Beaverson stadium and it was a very exciting game.

## G. P. Flying Club To Make Drive For More Members

A meeting of the Grande Prairie Flying Club was held on Monday. The club is planning to make a drive for more members.

Mr. Thompson, who is in charge of the project, was accompanied by Mr. Thompson, who is in charge of the project, and Mr. Thompson, who is in charge of the project.

## BEZANSON BASEBALL TEAM DEFEATED B. L. 9-3 ON SUNDAY

## Immigration From The British Isles

To the Editor of The Tribune.

Having read news reports of addresses given at Winnipeg and Saskatoon by Sir Francis Plouffe, High Commissioner in Canada for the United Kingdom, on the subject of a resumption of British immigration to Canada, I ask your permission to make some comments on his reported observations.

All supporters of the "how much" discussed policy of renewed immigration from the British Isles to Canada will, I feel sure, welcome the fact that the High Commissioner is participating in our public discussions of this very important item of national and Empire policy. Though many of us may differ from him on certain points, we believe that the more openly, fully, and frankly the question is discussed, the more likelihood there is of agreement on a definite plan of action which will give the result at which he and we alike aim—a continuous flow of good people from the British Isles to Canada and their satisfactory settlement amongst us.

There are considerable divergences of opinion both as to the economic advantages to be gained by Britain and by Canada from such a policy, and also as to methods of settlement and respective contributions towards its cost. The chief cause of what sometimes seems to be irreconcilable views appears to me to be lack of time to study the question, but I am sure that there is an immediate instance of what I mean: Sir Francis Plouffe's recommendations (according to reports of his addresses given on June 4) that the contributions of the British and Canadian governments to any future settlement schemes should be on the same 50-50 basis as in the old 3,000 family scheme; while the Hon. T. A. C. C. Macdonald, Minister of Immigration, addressing a deputation from the Empire Migration and Development Conference in London (England) on June 14, pointed out that considerable losses had occurred under the 3,000 family scheme, that the respective money contributions towards the losses were not equitably apportioned, that Canada's share is a very heavy burden for her to carry and that while her relief expenditures are so heavy she cannot make any cash contribution towards the settlement of new immigrants, though she is willing to consider any plan of settlement which does not involve a cash contribution from her. Here are two divergent and apparently irreconcilable points of view. A careful examination of them and of the underlying factors will, however, show that while such is well-founded and justifiable, the object of both can be attained by one and the same means—a properly devised settlement plan.

The High Commissioner is right in urging that the contribution of Canada should be equal to that of the United Kingdom, and Canada's great practical contribution—in kind—to the settlement of new immigrants, that is to say her vast expenditures in developing the country and preparing it in advance for their reception, is clear proof of her desire and intention to play her part fully. Similarly the Minister of Immigration is right in pointing out that Canada cannot at the present time make any cash contribution towards the settlement of new immigrants, though there is really no logical reason why Canada should be asked to do so.

It needs, Mr. Editor, only a study of fundamental factors, good-will on both sides, and some "give and take," in order to arrive at agreement. Where is the advantage of dicker over the exact money value of respective contributions before we know what contributions are actually available? Who can say what contributions are required until a definite and concrete plan of settlement has been accepted or approved by the two governments?

BRITAIN SENDS REINFORCEMENTS TO PALESTINE

The special Royal Commission sent by the British government to review the Palestine situation between the Jews and the Arabs will shortly release its report on the delicate subject. It will probably be heralded by further outbreaks between the Jews and the disaffected Arabs, and the British government has sent reinforcements in order to be prepared for emergencies. Above are pictures of British troops in Palestine, while inset, is the giant warship Repulse, which has been sent to Haifa. At the top, inset, is Lord Peel, who is the chairman of the special Royal Palestine Commission.

### Grande Prairie and District Flying Club

POU DU CIEL ("Sky Flew")

### AVIATION—200 YEARS AGO

When we read in the papers about Amelia Earhart having a special flying laboratory built for her so that she can carry out researches in aviation, we swell with pride at the enlightenment of our time in which women have every opportunity equal to man.

Our smug reflections are rudely disturbed as we turn through the pages of history and learn about famous women flyers of another day, who day away back in the remote beginnings of aviation, when the hot air balloon was the vehicle of the etheral spirit alone.

These female pioneers of aviation besides risking their necks, and in some cases breaking them, with courage and胆 did so in costumes that total money resources as represented by bank deposits, as far as can be ascertained, are about \$800,000,000. (2) and against this, the total debt of the people is about \$440,000,000. That is, the money available is less than one-fifth of the debt—is only a vulgar realization of what can easily happen under a capitalistic regime.

Someone has said: "Therein lies the difficulty." While our great natural resources make distribution of dividends and lower cost of living physically possible, tremendous shortage of capital or financial credit makes the distribution of goods financially impossible.

This is absolutely enormous. What are the \$800,000,000 doing in the banks? What is going on these days in the Turner, Valley of riches? Why allow millions of dollars of over-capitalization? Why not take control of the oil production?

What is intended to be done to contract the loss of many millions each year on account of customs duties? What is intended to be done regarding the tariff? Just this year through abnormal freight rates?

It is absolutely enormous to base production on the issue of money. The \$800,000,000 and the \$440,000,000 mentioned above do not prove the apparent necessity of issuing social credit or new money, but they clearly show the fruits of the capitalistic regime. These amounts show clearly that the true function of money has not been observed.

What is physically possible does not bar us in the accomplishments of financial blunders.

The actual financial system cannot be improved, corrected, with an infusion of social credit or new money. It is rotten in its inception as well as in its operation. It can be said that the article used as money should be monetized in that sense, and not the exchangeable goods or services. This being so, such exchangeable goods or services do not necessarily possess a power of monetization themselves.

Money must not be considered as a prime factor, but only as an auxiliary measure, to facilitate all exchanges. Money saving must be regulated in order not to cause any impediments to the circulation of money.

Social credit will be a failure in Alberta, because it is based on an erroneous conception of the true function of money.

leges that no less a percentage than the amount Queen of Sheba was known to have dabbled with aviation. One of the gifts from old King Solomon to the queen was a vessel for traversing the air (for winds) which his wisdom caused him to construct.

It is one believes the part of the Scriptures that she was already winged at an earlier time. It is easy to imagine the world's Queen ascending down to the ancient equivalent of Adala Alaba, and her certified sage setting much the same as they did when she sailed, new Glasgow, when he made a landing in a rural district. A Mr. and Mrs. Chisholm approached the airman and showed a polite interest in his gear. Mrs. Chisholm—unmistakable—said creatures these air—expressed a desire to go up in the air, too, so she said. While the two men were engaged in conversation regarding the matter, the traditional enemies of the women of this air—turned again, the lady settled the argument by ascending into the ship and casting off.

Like the gallant, quick-thinking pilot that he was, leaped into the air, and the traditional enemies of the women of this air—turned away from history had done her stuff. It is recorded that the three parties involved became fast friends, but we can use our own judgment about that.

The first official flight of a woman occurred a year later, in 1785, when Mrs. Gage ascended in a balloon with the same atmosphere. Romeo. This flight was marred by a riot caused by the fact that the traditional enemies of the balloon, the traditional enemies of the women of this air—turned away from history had done her stuff. It is recorded that the three parties involved became fast friends, but we can use our own judgment about that.

Marie Madeleine Sophie Blanchard was the first professional woman aviator. She made no less than 67 flights, and with her husband, she flew for a livelihood and for the cause of aviation. Among her most notable flights was a special ascent she made in celebration of Napoleon's marriage to the Archduchess Louise of Austria. For this commemorative flight she used an

especially decorated balloon bearing the Napoleonic monogram. Great were the hurrahs and plaudits of the crowd for our heroine.

Miss Blanchard was a barnstormer, and was known throughout Europe. As she travelled from place to place, her sensational exploits were eagerly followed by the popular press.

Poor Madame Blanchard came to her untimely end when her balloon burst into flames on July 6, 1795. She plunged to the earth amid a comet-like stream of flame and ended her brave career.

Wilhelmine Reichardt made her first balloon ascent in Berlin in 1811. She was the first German woman to fly. She became a professional balloonist and made 45 flights. Miss Reichardt was the cause of the oldest known police regulations regarding aviation. Because of her activities and because women do not fly, the Prussian police on October 28, 1850, promulgated a ruling that women are forbidden to fly.

Other women of note at the dawn of aviation were Eliza Gurnee, wife of Andre, Jacques Garneau, and Madame Rifford, whose husband was also a sky-farer. Flying held no fear for these women. They knew the devices to which they were trusting their lives were of the safest and finest construction. They knew that their knowledge of aerodynamics and balloons was practically reliable. Yet despite the hazards and despite the efforts of governmental authorities to put a stop to their risky practices, these women flew—sift with science, but many to their graves.

The lesson which all should learn that flies are dangerous carriers. They should be excluded from our homes by properly fitting window screens and doors.

And decaying material should be cleaned up. Furbage and other refuse should be wrapped and placed in cans which have tightly fitting lids. Outdoor privies in farming areas and at summer cottages should be properly constructed and looked after to exclude the flies. The few survivors who are clever enough to permit these defenses may be dealt with in the house by means of sticky fly paper or a fall swing with a fly swatter.

Anyone who has visited the East, where millions of people are prevented by religious injunction from taking the fly even of a fly, will tell of the horrible sight of flies crawling over the ugly sores of a beggar and transferring the germs of disease. All fifth month of a sleeping baby. It is possible that this toleration of the fly is responsible for the appalling death rate from intestinal disease which prevails in these countries. Canadians should realize that the common house fly is a dangerous animal and should take the simple steps necessary to prevent its ravages.

QUEEN MARY VISITS OXFORD  
Her Majesty Queen Mary, in the robes of a Doctor of Civil Law, walks in procession with Viscount Halifax, chairman of Oxford University, before performing the ceremony of laying the foundation stone of the Bodleian Library extension.

## GET AN 85-H.P. VALVE-IN-HEAD SIX for Smoothness, Performance and Unequalled Economy!

ONCE you had to sacrifice low running costs to get the driving thrill of power, pep and "pick-up". But not since Chevrolet stepped-up the famous Valve-in-Head economy engine to 85 smooth, eager horsepower! \$ Twenty-five and more miles to the gallon of gas!... that's the kind of economy reported by this year's Chevrolet buyers. And they're all enthusiastic about the way Chevrolet rides. "My 'Knee-Action' Chevrolet glides over the bumps like a \$1500 car!" say many. Others, safety-minded, put Chevrolet's perfected Hydraulic Brakes first in the

list of quality extras. All enjoy the added roominess, beauty and protection of the exclusive Unit Bodies by Fisher. \$ You get the only complete low-priced car when you buy a Chevrolet. And you save money every day and mile you drive!

\*On Master De Luxe Models.

**BEAR LAKE BULLETIN, No. 2**  
Pearl and Marjorie Hanks, Mrs. Van Schick and her children and Alvin Cretly left for their respective homes on Wednesday of last week.

Stanley and Danny Pavewit have joined us campers.

Mrs. J. Oliver and Frances, Marjorie, Joan and Margaret Spicer came out on Thursday and returned to town on Sunday for a few days of civilized life and not clean lakes. They believe in taking the truly rural life in small doses!

Mr. Miller and Max came out on Friday, bringing Rosita, the "cougar" with them for her summer vacation.

Duncan Bird is back again with his mother, Mrs. Raymond, and Nell Simpson adopted her too on Wednesday and is still satisfied with her mothering!

The storm residence has been mistaken for the Bible Students' camp headquarters—reason unknown!

Frances Spicer and Nelly Burnett are leaving here since Friday, and they and Fern Redore are the singing birds who make the week in whatever the week is. That's putting it nicely, for they are really "the birds of the peace," as they do their warbling of nights! But they returned to town on Sunday.

Roy Duffy is a lone bachelor here since Friday.

A continuous warm drizzle on Wednesday, then a brief hot period, and then a heavy downpour on Thursday made many campers, but Thursday saw many cars arrive.

A puntling, increasing crowd on Sunday were cooled off suddenly and chased home by a heavy rain.

The latest owners of the lake are one Joe Terrier and two cocker spaniels.

That's all for this week, folks. Bye signing off.

**SPEEDY SIDE-WHEELERS TO BE AT RHYSTOFT AND PEACE RIVER**

The 28th End will be represented in the harness section at the sports to be held at the Rhysoft and Peace River on August 3 and 4.

Swart Ellis is taking Lady Oswald and Gordon Oswald with him to the Rhysoft and Peace River on August 3 and 4.

These two well-known horsemen and drivers are expected to make a fine showing, especially at Peace River, as it is the only place where they have ever competed.

Both Morrison and Ellis can be depended upon to give a good account of themselves.

Ben Gray and son Joseph were visitors to Grande Prairie on Friday. The trip was made to purchase a car.

## At The Theatres

### CAPITOL THEATRE

THIS WEEK:  
Devil's Squadron, with Richard Dix, Karen Morley and Lloyd Noland.

Mon. Tues. Wed. July 20, 21, 22—Grace Moore in "When You're in Love" with Gary Gray.

2:00 p.m.—Ray Lake School

7:00 p.m.—Hythe United Church

**CHRISTIAN SCIENCE**

At all Christian Science churches next Sunday the subject of the Lesson-Bernon is "Truth."

The following is one of the Scriptural quotations contained in the Lesson-Bernon: "And one Word was made flesh, and dwelt among us (and we beheld his glory, the glory as of the only begotten of the Father), full of grace and truth. And of his fullness have all men received, and grace for grace. For the law was given by Moses, but grace and truth came by Jesus Christ." (John 1:1-14)

## SOCIAL CREDIT "PLEDGE FOR UNITY FOR RESULTS"

EDMONTON, July 22.—Unity pledges are being distributed to the membership of over 40,000 in this province by the Alberta Social Credit League, according to information given out today by J. A. Maurice, secretary. Pledge forms are being mailed out to the secretary of each Social Credit group in the province, said Mr. Maurice.

Entitled "A Pledge for the Unity for Results," the text of the form follows: "I know that Alberta is naturally one of the richest places in the world, that there are plenty of employable idle people.

"I demand that these be encouraged to produce with the aid of our many idle and partly idle machines such goods as will justify the issue of a dividend of \$25 a month to every bona fide citizen, and secure to them a lower cost of living. And I will vote to defeat every candidate for every office who refuses to vote consistently against any party who opposes this, my policy, and I wish to be an associate member of the above League."

More about the spread in price of garnet wheat.

Grande Prairie, July 19, 1937.

Sir,—At the meeting held at Grande Prairie on Friday last, the Chairman of the Grain Research Laboratory, Dr. G. W. C. Fleming, who was in charge of the meeting, it was contended that the reason that wheat was higher at Fort William than at Grande Prairie was due to the amount of grain shipped from the latter to the former.

It was thought that there were other reasons.

In this connection the Grande Prairie Board of Trade would like to draw attention to the following facts.

Of the total grain wheat in store on June 18, 1937, the grain was divided as follows:

At Fort William and eastern points there were 900,520 bushels of No. 1.

At Grande Prairie there were 248,111 bushels.

And again, in the quantities of feet wheat.

At Fort William and eastern points there were 670,500 bushels; at Vancouver, 105,573.

In both cases Fort Arthur is included with Fort William.

The Calgary Herald recently discussed editorially the opinion of the Grande Prairie Board of Trade that there was a difference in the price of wheat between the west and east.

Canada which appeared in The Tribune on July 19.

The article pointed out that the Grande Prairie Board of Trade that there was a difference in the price of wheat between the west and east.

William. Rather vague in its statement, the essence of The Herald's position appears to be: "There is a difference but nothing can be done about it."

The incoming crop will be on its way to the west, and the difference in price is not a new one.

Unlikely some concerted effort is made, the Grande Prairie Board of Trade is of the opinion that an appeal should be made to the Board of Grain Commissioners.

still, to the government, so that Peace River farmers will not be at a disadvantage in 1938 in the price of their grain.

## G. P. PUTNAM TO SEEK FOR HIS WIFE, AMELIA EARHART

LOS ANGELES, Cal., July 20.—A Los Angeles paper quoted unnamed friends of George Palmer Putnam Monday as saying he plans to charter a yacht and search the South Seas for his missing wife, Amelia Earhart, and her navigator, Captain Noon.

The paper reported friends said he also would take about several speed boats and spend from six months to a year searching in the vicinity of Howland Island.

"I know that Amelia is naturally one of the richest places in the world, that there are plenty of employable idle people.

"I demand that these be encouraged to produce with the aid of our many idle and partly idle machines such goods as will justify the issue of a dividend of \$25 a month to every bona fide citizen, and secure to them a lower cost of living. And I will vote to defeat every candidate for every office who refuses to vote consistently against any party who opposes this, my policy, and I wish to be an associate member of the above League."
